

## Game Making - Supporting Video

As part of the Game Making award you are offered the chance to enter a 'Supporting Video'. This is a great way to show the judges just how your game will look and gives you the chance to explain some of your design decisions. You only have **2-3 minutes** maximum so make sure you plan through what you want to say.

Some ideas you might consider:

- A game design diary (talking through your progress as you made the different parts of your game)
- Actual Game Play (show us what your game looks like to play!)
- Difficulties in game design and how you overcame them.
- How do you plan to develop your idea (is there anything you might change or improve on?)
